

## HUSQVARNA 340i - Skin Only

Powerful and versatile battery chainsaw. The Husqvarna 340i is a powerful, light, versatile, battery-powered chainsaw with great cutting capacity for all-round use like felling, pruning, cutting firewood or carpentry. Great manoeuvrability thanks to the saw's narrow body which keeps the centre of gravity close to the handles. Featuring low vibrations, low noise levels and a smart user interface with easily visible battery status on the handle. Tool-less or standard chain tensioning. Easy to use with both internal or backpack battery.

### Ergonomic design

The narrow saw body, high centre of gravity and flat underside make the saws handy to work with.

### Efficient brushless motor

Our in-house developed, advanced brushless motor is 25 % more efficient than a standard brush motor. This means that the motor provides a high and consistent torque.

### Power-Conserving savE™ Mode

SavE™ mode maximises the run time, reduces noise levels and preserves product battery life by lowering the rpm. Ideal for tasks that do not require full power. Just press the button to turn savE™ mode on and off.

### Key pad

Intuitive digital key pad. Very easy to operate.
