

Husqvarna Automower® 430X NERA

Husqvarna Automower® 430X NERA is a robotic lawn mower for complex lawns up to 3200 m². Achieve precision mowing with virtual boundaries via the Automower® Connect app and the optional Husqvarna EPOS™ Plug-in Kit, which eliminates the risk of wire breakage. Smart features such as object avoidance reduce the risk of unplanned stops, and with the virtual map created via GPS, Automower® Zone Control is enabled. This allows you to easily adjust the lawn care via your mobile phone and create work areas with different settings and temporary stay-out zones. 430X NERA can also be integrated with your smart home so you can use voice control with Alexa or Google Home, or take advantage of IFTTT routines.

Object Detection & Avoidance

Built-in radar assists the mower to detect and avoid objects, reducing the risk of unplanned stops. The detections mode reduces the speed and makes collisions softer and the avoidance mode causes the mower to turn away and avoid impact.

Automower® Zone Control

Automower® Zone Control allows you to easily create work areas with different settings and temporary stay-out zones. It gives you more control over the lawn so you can apply different schedules and cutting heights to each area or prevent the robotic lawn mower from mowing in selected areas.

Wire free installation available

The Automower® NERA range with Husqvarna EPOS™ offers you the freedom of completely customisable lawn maintenance, by creating virtual boundaries through satellite based technology, instead of physical wires.

Automower® Connect app

Enjoy the convenience of remote control from your smartphone with the Husqvarna Automower® Connect app. Among other things, you can manage and monitor your Husqvarna robotic lawn mower, change settings, and get easy access to information and tips that make lawn maintenance carefree. Cellular, Wi-Fi and Bluetooth connectivity available, dependent on model.

FEATURES

- The Automower® NERA range with Husqvarna EPOS™ offers customisable lawn maintenance by virtual boundaries.
- Automower® Zone Control allows you to easily create work areas with different settings and temporary stay-out zones.
- Built-in radar assists the mower to detect and avoid objects, reducing the risk of unplanned stops.
- Enjoy the convenience of remote control from your smartphone with the Husqvarna Automower® Connect app.
- GPS-assisted navigation ensures complete coverage of your garden by distributing the mowing evenly.
- Compatible with Amazon Alexa, Google Home and IFTTT for convenient voice control and status updates.
- A boundary wire can be placed in areas with satellite coverage issues to support the virtual boundaries and prevent mowing interruptions.
- Use Smart Connections in the Automower® Connect app or create your own flexible routines with IFTTT.
- Equipped with GPS tracking to keep track of the mower's current position and minimise the risk of theft.
- Automower® Access provides a smooth user interaction with a high-resolution colour display, jog wheel and status indicators.
- The accessory port enables plug-in accessories for additional features and technology.
- Husqvarna AIM Technology uses GPS and sensors to create a virtual lawn map, which enables a range of smart Automower® features.
- Husqvarna Automower® X-Line is our most fully-featured range, designed for those who want a top-of-the-line robotic lawn mower.
- If the mower is moved outside the predefined area, you will be notified in the app, minimising the theft risk.
- Easily make software updates yourself, via the Automower® Connect app, to enable new features and updates.
- Automatically interrupts the mowing schedule in frosty conditions, helping to protect the lawn.
- Create your own rewinding zone with the Automower® Connect app. With Rewinding Mode, you keep 10% of your lawn unmown for a boost in biodiversity.
- Automatically senses narrow passages and finds its way even through the smallest passages.
- Adjusts the working time to the lawn's growth rate, which decreases wear on lawn and mower.
- Special mode to quickly mow a limited area of longer grass.
- Improves the lawn quality by adjusting the cutting height from MAX to a defined height over a 10 days period.
- Spot and spiral cutting modes can be activated for efficient mowing in areas with high grass.
- Create several profiles with individual settings, making it easier to share the mower between numerous locations.
- Electric cutting height adjustment makes it convenient to set the desired height via the Husqvarna Automower® Connect app.
- Easily wash the exterior and underneath of the robotic mower with a garden hose. Removable cover for easy cleaning.
- This product does not emit CO emissions during use.

Technical Specifications

BATTERY	
Battery capacity	5.0 Ah
Battery pack weight	0.67 kg
Battery type	Li-Ion
Battery voltage	18 V
Charging current	4.2 A
Charging system	Automatic
Power consumption during cutting	19 W
Typical charging time	40 min
Typical mow time on one charge	100 min
Utilized Battery Capacity	4.0 Ah
CAPACITY	
Area capacity per hour	130 m ²
Area capacity per hour	1400 ft ²
Maximum slope performance at boundary	25 %
Maximum slope performance inside installation	50 %
Maximum slope performance inside installation	27 °
Power source	Battery
Area capacity	3200 m ²
CERTIFICATIONS	
Approved by Husqvarna Fleet Services	Yes
Design awarded product	No
Firmware Update	FOTA
DIMENSIONS	
Article gross weight	23900 g
Article net weight	19481 g
Cutting width	24 cm
